

SANTA MONICA SUITES HOTEL is a 4-plus-star hotel which holds 184 junior suites, and combines modern facilities, excellent service, and a privileged location in front of the Maspalomas Dunes Nature Reserve. Our main goal is environmental-care awareness with the highest quality level in all our services.

Its modern and minimalist design makes it an ideal location to enjoy the tranquillity and convenience that the hotel offers, an ideal location to couples and travellers who are looking forward to enjoying a pleasant and relaxing stay.

Staff's kindness and service make this hotel a perfect establishment to spend a resting and disconnecting time.

SANTA MONICA SUITES HOTEL values are based on sustainable development, and we are conscious of the impact our facilities activities may cause to the environment. Therefore, an environmental management system has been set up, which holds every aspect of our activity, is based on TRAVELIFE standard, and assumes the commitment to comply to any requirement and continuous efficacy improvement through the standard maintenance.

Our sustainability and environmental policy make the commitment to:

- Push forward **environmental care**, this being one of our main goals, through of our own environmental impact analysis throughout our whole lifecycle and set up measurements to decrease said impact. We understand this liability belongs to the hotel management and whole staff.
- Make all our activities within maximal environmental respect, so that we are able to **prevent contamination** in all our activities and other specific compromises relevant to our company's context. We also compromise to the conservation of Gran Canaria's biodiversity and wildlife, specifically to the Nature Reserve of Maspalomas Dunes, identifying our activities' potential impacts and the opportunities to contribute to its protection and conservation.
- A **continuous efficiency improvement** of our process: optimizing human and material resources, which leads to a permanent improvement within environmental respect.
- Develop a **staff-aimed training plan** to reach a higher awareness and motivation on environmental matter and guaranteeing our policy's compliance.
- **Current environmental legislation** compliance, which applies to our activity's reasons, and any other own requirements our company decides to commit to, prioritising Fundamental Human Rights protection and guaranteeing decent work conditions to our staff.
- Promote the **reduction of our consumption** and plan a waste management by easing recycling and reuse.
- Satisfy our guests' **needs and expectations** through quality facilities and services to get their loyalty.
- Provide our staff with necessary resources to conduct their tasks **in optimal safety and health conditions**.

- Encourage **staff and guests' environmental sensibilisation** through valuable information and recommendations that help good environmental execution.
- Support **local economy** by putting faith on local providers to acquire products and services.
- Draw attention to **local culture** through Canarian gastronomy and promoting activities, cultural events, and other leisure on the island to guests.

SANTA MONICA SUITES HOTEL management expresses their environmental commitment through their Sustainability and environmental policy herein and commits to share it to every level and supply the necessary resources to its compliance.

Manuel Florido
Head manager
